MEMBERSHIP BENEFITS

Boer Goat Breeders Association (BGBA) provides numerous benefits to its Members. Few of them are mentioned here :

Boer Goat Registration

Membership with BGBA allows breeders to register their Boer goats in BGBA animal register with unique identification number & ear tag number. BGBA Boer goat registration allows registration of different categories of Boer goats available with breeders. Registration process is governed at all stages of boer goat's life cycle to make it trustworthy. These stages includes

- Registration of Rams and does
- Breeding certification from sire owner.
- Kid's birth notification from breeders to association
- Followed by ear tagging with unique ear tag, number and QR code by association.

Our unique software keeps record of goat pedigrees. Breeders can track genetic heritage of all the registered animals which gives them an idea of the quality that's behind them. Having a pedigree proves that your goat is a genuine under its registered category. Animal registration allows breeders to present their animals to the market as a pedigree boer goat thus provides better market opportunities.

Data for analysis

Goats, like other types of livestock, can benefit from controlled breeding and selection to improve specific traits. To achieve this improvement and realize increased performance, it is critical that breeders have an understanding of some of the basic principles behind genetics and how to utilize performance records to make progress.

Pedigree selection can be an effective method of selection if the breeder knows enough about the animals in the pedigree. Pedigree data will help breeders to take breeding decisions to execute their breeding plans and to know extent of inbreeding percentage.

BGBA is going to provide you breeding knowledge and pedigree of registered animals. We fully understand that measurement is a basis for improvement. We are aiming to provide you lifetime averages and progeny testing data of animals in long run.

Consultations

Membership provides a substantial benefit by having access to mentors, expertise and experience breeders keeping in view to provide right guidance at all stages of your business. BGBA expert team will guide you on various subjects. The BGBA aims to serves its members by carrying out educational programs in marketing, genetic improvement and goat productions.

MEMBERSHIP BENEFITS

Events

BGBA will conduct conferences and seminars on Boer goat selection, management and improvement. BGBA will expand the boer goat market for its members by increasing the public's trust on breed, promoting the boer goat breed through advertisements and awareness programs. There will be boer goat exhibitions and shows at different locations in coming future.

BGBA members can enjoy discounts on fees for future conferences, seminars, goat exhibitions and shows.

Advanced Goat Farming

BGBA is providing you guidelines, aids and alerts on various subjects to make your goat farming experience comfortable and profitable. Such guidelines will be prepared by experts in different fields.

- Farm infrastructure design
- Various procedures in goat farming and machines tools required to carry out operations
- Financial planning and cost reduction
- Farm managements
- Marketing & sales
- Daily, periodic and emergency goat management activities and many more.

This is what goat breeders were looking for long time. This day by day improvement in knowledge and experience of breeders will give new dimensions to their business.
